CONSIDERATIONS

This recipe was planted in an 18.5" wide Michael Carr scalloped planter. All the plants are in quart-size containers except the Ace of Spades sweet potato vine, which is in a 4" container. If the size of your container or plants varies, you may need to adjust to include more or less plants.

FULL SUN TO PARTIAL SHADE

Full sun to partial shade means your plant needs at least 6 hours of direct sunlight each day to thrive and bloom beautifully. Morning sun and some afternoon shade is often ideal. If your pot gets less than 6 hours of sun, you may see fewer flowers and slower growth.
